Did you know that UTAS offers pathways into degree study?

The Bachelor of General Studies – Engineering Pathway provides a supported introduction to university level study in engineering, setting you up for success and helping you achieve your goals.

WHAT IS THE BACHELOR OF GENERAL STUDIES – ENGINEERING PATHWAY?
The Bachelor of General Studies – Engineering Pathway foundation year is for students wishing to study a Bachelor of Engineering at UTAS. Students who successfully complete this foundation year will automatically qualify (with credit) for entry into a Bachelor of Engineering in either the Australian Maritime College or the Faculty of Science, Engineering and Technology. The program incorporates a combination of the necessary preparation/foundation study, along with some first year engineering units. It may be used as an alternative entry for trades people, school leavers who do not meet ATAR entry requirements, and others wishing to pursue a Bachelor of Engineering.

HOW IS THE PATHWAY TAUGHT?
Duration: 1 year (fulltime), up to 3 years part-time
Location: Cradle Coast, Hobart, Launceston
Intake: February

OTHER IMPORTANT INFORMATION:
Students study a combination of generic university preparation units and faculty-based foundation and Introductory (first year) level units. HECS fees apply only to first year units only. All other units are HECS free. Successful completion of the foundation year meets general entry requirements and guarantees entry into nominated degrees, with credit for first year units (some conditions apply).

HOW DO I GET STARTED AND APPLY?
Contact the UTAS Info centre for more information:
Phone: 1300 363 864
Email: Course.Info@utas.edu.au
Or apply online: www.utas.edu.au/apply

Note: This course is not available to international students
